

The Magical Keys to Success

Bill Gormont, MS

These *Four Magical Keys* apply universally from child to teen and adult ... In every walk of life ... In every career ... In every project ... In every house.

- **Practice**

(10%) – It's through repetition that processes and skills are developed and refined. But, they must be “properly practiced”.

- **Patience**

(10%) – Success doesn't happen overnight. It requires time for those practiced skills to become truly effective.

- **Persistence**

(10%) – Maintain focus. As W. Edwards Deming, Quality Guru, would require of his students ... “Maintain Constancy of Purpose”

- **Passion**

(70%) – The emotion, energy and commitment in your heart and mind will enable you to succeed and become extraordinary.
